INDEPENDENT AUDITORS' REPORT

The Board of Directors
Adams County Retirement Plan

Report on the Financial Statements
We have audited the accompanying financial statements of the Adams County Retirement Plan (the Plan), which comprise the statements of Plan net position as of December 31, 2013 and 2012, and the related statements of changes in Plan net position for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Plan as of December 31, 2013 and 2012, and the changes in financial position for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of funding progress and schedule of employer contributions on pages 3 – 12 and 28 – 29 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Adams County Retirement Plan's basic financial statements. The other supplementary information listed in the table of contents is presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

This discussion presents management's view of the Adams County Retirement Plan's financial activities and performance during the fiscal year ended December 31, 2013, and is to be read in conjunction with the Retirement Plan's financial statements.

FINANCIAL STATEMENT HIGHLIGHTS

The net position of the Adams County Retirement Plan (the Plan) at the close year end 2013 were $224,301,114 compared to $199,741,510 for 2012 and $181,624,022 for 2011 (net position held in trust for pension benefits).

Adams County Retirement Plan's total net position held in trust for pension benefits increased by $24,559,604 in 2013 or an increase of 12.30% compared to an increase of $18,117,488 or 9.98% in 2012, and compared to a decline ($3,410,971) or a loss of (1.88%) in 2011 primarily as a result of the global stock markets fluctuations.

Adams County Retirement Plan's funding objective is to meet the long-term benefit obligations through contributions and investment income. As of January 1, 2013, the date of the Plan's last actuarial valuation, the funded ratio for the Adams County Retirement Plan based on the actuarial value was 51.5% compared to a funded status of 54.3% as of January 1, 2012 and 57.4% as of January 1, 2011. As of January 1, 2013, the date of the Plan's last actuarial valuation, the funded ratio for the Adams County Retirement Plan based on market value was 51.6% compared to a funded status of 48.9% as of January 1, 2012 and 51.9% as of January 1, 2011.

Revenue (Additions to Plan Net position) for 2013 was $44,779,839 which included employee and employer contributions totaling $16,922,820 and a net investment income gain of $27,857,019, while respectively 2012 and 2011 showed an increase in revenue of $36,964,490 and $13,697,550 which included employee and employer contributions respectively for 2012 and 2011 of $15,200,037 and $14,635,268. The Plan had a net investment income gain of 21,764,453 for 2012 and net investment loss of ($937,718) for 2011.

Annual gross pension benefits paid to retirees and beneficiaries were $17,392,107, $16,095,266 and $14,669,214 for 2013, 2012 and 2011 respectively.

Refund of Contributions paid to former members upon termination of employment increased in 2013 to $2,029,377 compared to $1,870,042 in 2012 and $1,761,213 in 2011.

Administrative Expenses decreased in 2013 to $798,751 compared to $881,694 in 2012 and $678,094 in 2011, reflecting a spike in legal counsel expenses during 2012 due to plan changes.

Investment Manager Fees and Trustee Fees for 2013 were $1,102,916 compared to $981,500 and $983,212 in 2012 and 2011 respectively. The Investment Manager Fees increased due to the addition of money managers, increased fee structures and an increase in assets under management.

OVERVIEW OF THE FINANCIAL STATEMENT

Because of the long-term nature of a defined benefit plan, financial statements alone cannot provide sufficient information to properly reflect the Plan's future perspective. This discussion and analysis is intended to serve as an introduction to the Adams County Retirement Plan's Financial Statements, which are comprised of the following components:

Financial Statements
- **Statement of Plan Net position**

SECURITIES LENDING TRANSACTIONS

State Statutes and the Adams County Board of Retirement (the Board) policies permit the Adams County Retirement Plan to lend its securities to broker-dealers and other entities with a simultaneous agreement to return collateral for the same securities in the future. There were no securities lending arrangements for 2011, 2012 or 2013.

REVENUE – ADDITIONS TO PLAN NET POSITION

Additions to the Adams County Retirement Plan net position held in trust include employee and employer contributions, as well as investment income. Effective January 1, 2013, the total contribution rate increased from 16.50% to 17.00%, split equally between the employee and the employers. The contributions rate will continue to increase 0.25% per year up to combined employer and employee rate of 18.0% in 2015.

Contributions totaling $16,579,534 ($8,289,767 employers and $8,289,767 employees), $15,066,811 ($7,533,395 employers and $7,533,416 employees) and $14,471,537 ($7,235,764 employers and $7,235,773 employees), were made during the years ended December 31, 2013, 2012 and 2011 respectively. These contribution amounts fell below the Annual Required Contribution (ARC) amount for the years ended December 31, 2013, 2012 and 2011. The ARC is the required annual contributions of the employers as required by the Plan. The ARC rate as of January 1, 2013 was $27,856,681 and the actual contributions received from the employer in 2013 were $8,289,767 resulting in a compensation shortfall of $19,566,914. The ARC rate as of January 1, 2012 and January 1, 2011 respectfully were $26,530,718 and $25,218,142 while the actual contributions received from the employer in 2012 and 2011 were $7,533,395 and $7,235,764 resulting in compensation shortfalls for 2012 and 2011 of 18,997,323 and $17,982,378 respectfully.

Plan members who were hired before January 1, 2010, who have at least five years of Continuous Service, but less than seven years of Continuous Service, may purchase service credit under the regular purchase of service provisions. For the year ended December 31, 2013, 2012 and 2011, the purchase of service contributions, were $343,286, $133,226 and $163,731 respectively.

The Adams County Retirement Plan portfolio saw a significant increase in the global stock market performance in 2013. The Adams County Board of Retirement and their financial consultant are confident in the Plan's diversification and reevaluate the portfolio assets monthly to ensure the financial obligations of the Plan are being met for future long-term obligations payable to plan members and beneficiaries.

For actuarial calculations, Adams County Retirement Plan's actuary uses a five-year smoothed market to determine the actuarial value of assets. The smoothing prevents extreme volatility in employer contribution requirements due to fluctuations in the markets.

DESCRIPTION OF THE PLAN AND PLAN CHANGES

The Adams County Board of Retirement is the administrator of a cost-sharing multiple-employer public employee retirement system (PERS). The Adams County Retirement Plan is a qualified tax-exempt plan under Sections 401(a) and 501(a) of the Internal Revenue Code and is not subject to the provisions of the Employee's Retirement Income Security Act of 1974 (ERISA). The Plan is a Defined Benefit Pension Plan for eligible employees of Adams County, Colorado and Rangeview Library District.

The Adams County Board of County Commissioners approved a resolution that will allow the contribution rate to increase at a rate of 0.5% per year up to 18% (Employer 9%/Employee 9%) by 2015.

The Adams County Retirement Plan received a favorable determination letter from the Department of the Treasury for Adams County and Rangeview Library District Effective August 8, 2011.

The Adams County Board of Retirement submitted information to the Department of the Treasury for a determination letter of continued qualification on January 30, 2014 as provided for under Rev. Proc. 2012-50 Cycle C filing from February 1, 2013 through January 31, 2014.

The Adams County Retirement Plan was Amended and Restated Effective January 1, 2014 for the following reasons:

- Notwithstanding previous efforts to improve the Plan's funded status, as of January 1, 2012, the Plan was less than 50% funded based on the market value of its assets and without further modifications, the Plan's actuary has projected the Plan to be less than 51% funded by 2044 based on the market value of its assets;

- According to the Plan's actuary, the Plan at its current funded status cannot rely on investment returns to resolve the funding problem and the sustainability of the Plan is in jeopardy;

- At this time, Member contributions should not be increased beyond 9% to improve the sustainability of the Plan because a higher contribution level (together with Social Security and Medicare contributions) would pose a hardship on Members;

- Based on advice from the Plan's actuary to ensure the sustainability of the Plan and as provided by SB 12-149, modifications to the benefits and service requirements permitted by SB 12-149 are required to ensure the sustainability of the Plan;

- The Plan's actuary has advised the Retirement Board that to ensure the sustainability of the Plan pursuant to SB 12-149, the Retirement Board should set a goal that the Plan be projected to be between 95% and 105% funded by 2044 based on the market value of its assets;

- Certain Plan provisions should be amended effective January 1, 2014 by the Amendment such that the Plan is projected to be 95% funded by 2044 based on the market value of its assets;

- Members have received written notice of the possibility of a reduction of retirement benefits in the future and were invited to meetings informing them of the need for a reduction in benefits and describing the benefit reductions being considered by the Retirement Board;

The Adams County Retirement Plan was Amended and Restated Effective January 1, 2014 with the following Plan changes:

- Effective January 1, 2014, two-component retirement benefits for Members in Tiers 1 and 2, referred to herein as Component A and Component B, shall be created;

- Component A shall be the Member's retirement benefit that has accrued through December 31, 2013, as calculated pursuant to Section 6.1(b) of the Plan prior to the Amendment, except that the average monthly compensation for Component A shall include compensation earned on or after January 1, 2014 and shall be calculated based on Section 2.1(c) of the Plan prior to the Amendment;

- Component B shall be equal to the Member's career compensation earned on or after January 1, 2014 multiplied by 1.75% and divided by 12, and the sum of Components A and B shall be subject to the minimum benefit provisions of Section 6.4 of the Plan prior to the Amendment;

- The Member's normal pension calculated under Component A and Component B shall not exceed the 80% Cap;

- In the event the Member's normal pension calculated under Component A and Component B combined exceeds the Member's normal pension calculated under the terms of the Plan prior to the Amendment, the Member's normal pension shall be calculated pursuant to the terms of the Plan prior to the Amendment;

- A Member in Tier 1 or Tier 2 who requests a refund of his or her contribution accumulation on or after January 1, 2014 shall receive the sum of: (a) a refund of the Member's contribution accumulation determined based on (i) the Member's contributions made through December 31, 2013 with interest accumulating through the date of such refund, (ii) the percent of the contribution accumulation determined in the applicable table under Section 6.3(b) of the Plan prior to the Amendment, and (iii) the Member's completed years of continuous service at his or her termination of employment, adjusted as provided in Section 6.3 of the Plan prior to the Amendment, and (b) a 100% refund of the Member's contributions made on or after January 1, 2014 including interest thereon and excluding a refund of the Employer's contributions with respect to the Member made on or after January 1, 2014 and any interest thereon;

- A Member who elects and actually purchases service credit pursuant to the Subsidized Purchase of Service Provisions shall be entitled to have such service credit attributed to the normal pension calculated under Component A;

- The extended purchase of service provisions shall be revised for a Member in Tier 1 or Tier 2 to reflect the addition of Component B;

- The extended purchase of service provisions shall be eliminated for Members hired on or after January 1, 2014;

- A Member in Tier 1 or Tier 2 who is or becomes disabled under the terms of the Plan on or after January 1, 2014, shall have his Component B benefit for the period of disability on or after January 1, 2014 determined based on the greater of:

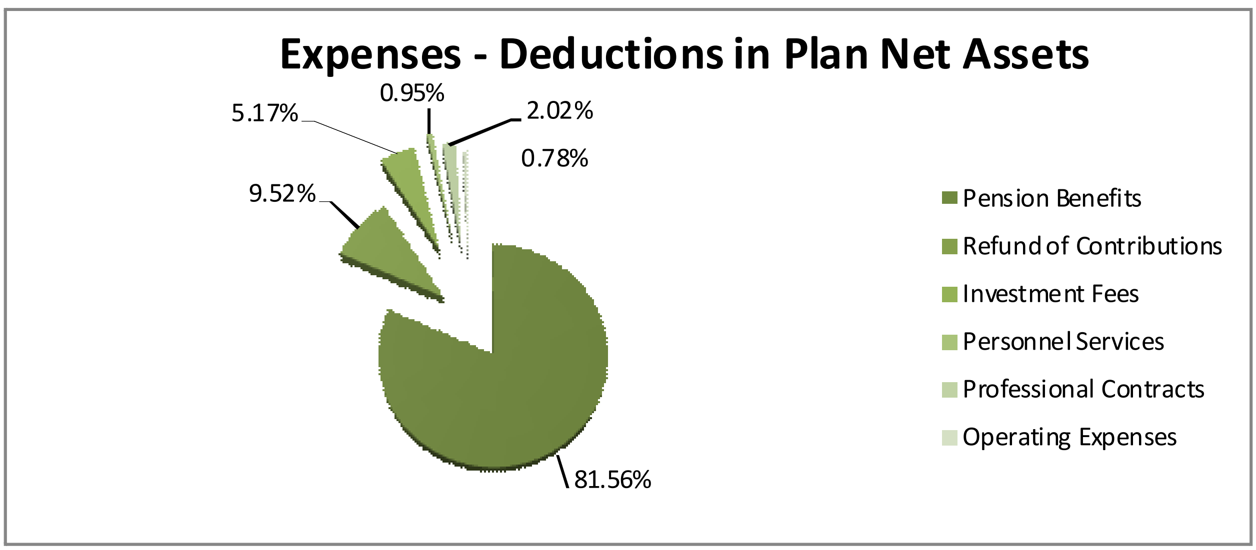
(i) the Member's career compensation earned on or after January 1, 2014 multiplied by 1.75% and divided by 12, or

(ii) 1.75% of the Member's career monthly compensation earned on or after January 1, 2014 multiplied by the total number of his years of credited service earned on or after January 1, 2014, provided that the sum of the Component A and B disability benefits shall be subject to the minimum benefit provisions of Section 6.4 prior to the Amendment and shall not exceed the lesser of the 80% Cap or the disability benefit determined under the terms of the Plan prior to the Amendment;

- Special computations are performed for a Member in Tier 3 who has a leave of absence for qualified military service, and similar computations shall be incorporated into the Plan for Component B for a Member in Tier 1 or Tier 2 who has a leave of absence for qualified military service that begins or continues on or after January 1, 2014; and
- The Retirement Board hereby delegates to the Plan's Executive Director the authority to construe and interpret the Plan to resolve any and all issues that may arise in connection with or as a result of the Amendment.

EXPENSES – DEDUCTIONS FROM PLAN NET POSITION

The Adams County Retirement Plan was created to provide lifetime retirement annuities, survivor benefits and disability benefits to qualified members and their beneficiaries. The cost of these programs includes recurring benefit payments, as designated by the Plan, refund of contributions to terminated members, and the cost of administering the system. The Plan had an increase in pension annuities due to the retirement of several highly compensated and long term participants who had reached maximum benefits. The Plan noted an increase in participant refunds and a decrease in administrative expenditures. The Investment Manager Fees increased due to the addition of money managers and increased fee structures.



ADAMS COUNTY RETIREMENT PLAN - FIDUCIARY RESPONSIBILITY

The Adams County Board of Retirement are fiduciaries of the pension trust fund. Under Colorado State Statutes the assets can only be used for the exclusive benefit of such employees or beneficiaries and the payment of the Plan expenses.

The members of the Adams County Board of Retirement have each acknowledged and signed a Conflict of Interest and Adherence to Colorado Code of Ethics Acknowledgement Form, which states that as members of the Adams County Board of Retirement for the Plan, their behavior was in accordance with the requirements of Section 24-18-108.5 of the Colorado Revised Statutes.

NOTE 1 – DESCRIPTION OF PLAN

The Adams County Retirement Board (the Board) is the administrator of Adams County Retirement Plan (the Plan). The Plan is a multiple-employer defined benefit pension plan covering substantially all full-time employees of Adams County (the County) and Rangeview Library District (Library District). The authority under which obligations to contribute to the Plan by Plan members and employers are established and may be amended by the Board. The Plan was amended and restated effective January 1, 2011.

The Plan is not subject to the provisions of the Employee's Retirement Income Security Act of 1974 (ERISA). It is qualified as a tax-exempt plan under Sections 401(a) and 501(a) of the Internal Revenue Code. Employee contributions are required as a condition of employment and are matched, dollar for dollar, by the employer. Contribution provisions are established by the Adams County Board of County Commissioners and ratified by the Adams County Retirement Board for the members and the employers' contributions.

Membership

The Plan includes any person who is an elected or appointed County official or Deputy, and staff of such person, and any person who is employed by the employer in a position budgeted for thirty (30) hours or more per week. Any employee of the Retirement Board who meets these requirements shall be considered an employee of the employer for purposes of the Plan. The Plan excludes temporary employees and employees who are in a position budgeted for less than thirty (30) hours per week.

Effective December 27, 2004, the Rangeview Library District joined the Adams County Retirement Plan as a participating employer. Eligible employees of the Library District participate in the Plan on the same terms as eligible County employees, so long as the Library District remains a participating employer. Before December 27, 2004, Library District employees were County employees and participated in the Plan as County employees. The County and the Library District are currently the only participating employers in the Plan.

Employee membership data follows:

	January 1,	
	2013	2012
Retirees and beneficiaries currently receiving benefits	823	790
Members with deferred benefits	156	142
Active members	1,753	1,709
Members due a refund of contribution	114	122
Total members	2,846	2,763

Purchase of Credited Service

Effective November 1, 1994, Plan members with 5 years credited service may purchase up to five years of credited service for any period of full-time, non-vested previous employment with any private or public employer in the United States subject to certain conditions. Members who were eligible on this date could make a one time election to purchase service credits by

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

December 31, 1996. After November 1, 1994, members hired prior to January 1, 2010 could make an election to purchase service credits within two years after the completion of five years of continuous service.

Benefits

The Plan provides retirement benefits, as well as death and disability benefits. Employees hired before January 1, 2010 with less than five years of continuous service at the date of termination receive a refund of their contributions. Employees hired on or after January 1, 2010 with less than 10 years of continuous service at the date of termination will receive refund of their contributions. The refunds include interest at the current rate of 3% for both 2011 and 2010. Depending on their hire date, employees with at least five or ten years of continuous service at the time of termination may choose a refund of their contributions, including interest and the accumulated value of the amounts paid for purchases service credit, if any, or a deferred vested benefit when eligibility is reached.

Normal retirement begins at age 65 with full benefit, regardless of credited service. However, the Plan has provisions for early and delayed retirement. Early retirement begins if the employee has reached age 55 and completed at least five years of service, and the employee was hired in covered employment before January 1, 2005, or met the reemployment rule. Employees hired in covered employment on or after January 1, 2005 and before January 1, 2010, can take early retirement on reaching the age of 55 with at least 10 years of service. Employees hired on or after January 1, 2010 will be eligible for early retirement once their age plus service, including purchase of service equals 80 or more and they have attained the age of 55 prior to termination of employment. Elected officials are eligible for immediate vesting.

For employees hired in covered employment before January 1, 2005, the average monthly compensation is calculated using a 36 month average, multiplied by 2.5% and then multiplied by the total years of credited service through December 31, 2013 to determine Component A of the employee's retirement benefit. Career compensation earned on or after January 1, 2014 is multiplied by 1.75% and divided by 12 to determine Component B of the employee's retirement benefit. The sum of components A and B will equal the employee's monthly benefit under the Plan, subject to minimum benefit provisions and an 80% Cap described by the Plan.

For employees hired in covered employment after January 1, 2005, the average monthly compensation is calculated using a 60 month average, multiplied by 2.5% and then multiplied by the total years of credited service through December 31, 2013 to determine Component A of the employee's retirement benefit. Career compensation earned on or after January 1, 2014 is multiplied by 1.75% and divided by 12 to determine Component B of the employee's retirement benefit. The sum of components A and B will equal the employee's monthly benefit under the Plan, subject to minimum benefit provisions and an 80% Cap described by the Plan. .

For employees hired in covered employment after January 1, 2010, the retirement benefit is based on the employees career compensation, multiplied by 1.75% and divided by 12.

Employees hired prior to January 1, 2010 receive a benefit payable for life with a guarantee of 120 payments. Employees hired on or after January 1, 2010 receive a benefit of a single life annuity. Optional benefits are available which provide alternative survivorship benefits.

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

Disability benefits are calculated in the same manner as a normal retirement benefit, using the participant's date of hire to verify compensation. Death benefits, which an employee's beneficiary may receive from the Plan, are dependent upon when the employee's death occurs. All benefits are determined by the requirements established by the Plan.

Members in the Plan are always 100% vested in their contributions. Members may receive a refund of up to 200% of their contribution accumulation made through December 31, 2013 with interest accumulating through the date of the refund based on completed years of continuous service and date of participation. Members may receive a refund of up to 100% of their contribution accumulation made after December 31, 2014 with interest accumulating through the date of the refund based on completed years of continuous service and date of participation.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements were prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP) applicable to governmental accounting in accordance with Governmental Accounting Standards Board (the GASB). Both Plan member and employer contributions are recognized as revenues in the period in which employee services are performed. Benefit and refund payments are recognized when due and payable in accordance with the terms of the Plan.

Investments

Investments are reported at fair value. Short term investments are reported at cost, which approximates fair value. Securities and funds traded on national or international exchanges are valued at the last reported sales price at current exchange rates. Investments that do not have an established market value are reported at estimated fair value. The fair value of real estate investments is based on independent appraisals. Fair value of other securities is determined by the mean of the most recent bid and asked prices as obtained from dealers that make markets in such securities. Fair value for investments in private equity and hedge funds are estimated by adjusting the most recent market values reported by the funds. These adjustments are made by estimates from investment managers as to market values at year-end, including known cash activity such as capital calls, distributions and management fees, as well as, adjustments to audited financial statements of the funds.

The Plan presents, in the statement of changes in Plan net position, the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains and losses and the unrealized appreciation and depreciation on those investments. Purchases and sales are recorded on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

There are certain market risks, credit risks, foreign currency exchange risks, and event risks which may subject the Plan to economic changes occurring in certain industries, sectors or geographies.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Reporting Entity

The GASB has specified the criteria to be used in defining a governmental entity for financial reporting purposes. In accordance with governmental Accounting Standards, the Plan has considered the possibility of inclusion of additional entities in its annual financial report. The definition of the reporting entity is based primarily on financial accountability. The Plan is financially accountable for organizations that make up its legal entity. It is also financially accountable for legally separate organizations if the Plan appoints a voting majority of the organization's governing body and is either able to impose its will on that organization or here is a potential for benefits to, or to impose specific financial burdens on, the Plan. The Plan may also be financially accountable for governmental organizations that are fiscally dependent upon it. Based upon the application of the above criteria, the Plan has no includable entities and is not considered a component unit of another entity.

New Pronouncement

GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities* specifies that the items that were previously reported as assets and liabilities that should now be reported as deferred outflows of resources, deferred inflows of resources, outflows of resources, or inflows of resources. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2012. The provisions for this statement were implemented for the Plan with its fiscal year ending December 31, 2013.

GASB Statement No. 67, *Financial Reporting for Pension Plans; an Amendment of GASB Statement No. 25,* replaces the requirements of Statements No. 25 and No. 50 related to pension plans that are administered through trusts or equivalent arrangements. The requirements of Statements No. 25 and No. 50 remain applicable to pension plans that are not administered through trust or equivalent arrangements. The requirements of this Statement are effective for financial statements for fiscal years beginning after June 15, 2013, and will be implemented for the Plan with its fiscal year ending December 31, 2014. The requirements of this Statement include additional disclosure concerning the actuarial assumptions and additions to the required supplementary information.

Fixed Assets

As of December 31, 2013 and 2012, all real property and workstations used by the Plan are owned by the County, and as a result, are not reported in the financial statements.

Administrative Expenses

The cost of administering the Plan is financed through the contributions and investment earnings that it receives.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses. Actual results could differ from these estimates. Actuarially determined future benefit payments require the use of significant estimates. The Plan believes that the techniques and assumptions used in establishing these estimates are appropriate.

Actuarial Valuation

The information included in the required supplementary schedules is based on the actuarial valuation performed as of January 1, 2013, which is the date of the latest available information. Significant actuarial assumptions used in the valuation are included in the notes to the required supplementary schedules.

NOTE 3 – CASH DEPOSITS

Cash Deposits

At December 31 2013 and 2012, the Plan has deposits in financial institutions with bank balances of $20,966 and $18,987, respectively, and carrying values of $20,966 and $18,987, respectively, all of which was covered by the Federal Depository Insurance Corporation. There were no cash deposits held in trust as of December 31, 2013 or 2012.

NOTE 4 – INVESTMENTS

Investment Risk Factors

There are many factors that can affect the value of investments. Some, such as custodial risk, concentration of credit risk, and foreign currency risk, may affect both equity and fixed income securities. Equity securities respond to such factors as economic conditions, individual company earnings, performance, and market liquidity, while fixed income securities are particularly sensitive to credit risks and changes in interest rates. The Plan has established investment policies to provide the basis for the management of a prudent investment program appropriate to the particular fund types.

Credit Risk

Fixed income securities are subject to credit risk, which is the risk that a bond issuer will fail to pay interest or principal in a timely manner or that negative perceptions of the issuer's ability to make these payments will cause prices to decline. A bond's credit quality is an assessment of the issuer's ability to pay interest on the bond and, ultimately, to pay the principal. Credit quality is evaluated by one of the independent bond-rating agencies such as Moody's Investors Service or Standard and Poor's. The lower the rating, the greater the chance that the bond issuer will default or fail to meet its payment obligations.

NOTE 4 – INVESTMENTS

Generally, the lower a bond's credit rating, the higher its yield should be to compensate for the additional risk.

Certain fixed income securities, including obligations of the US. Government or those explicitly backed by the US. Government, are not considered to have credit risk.

The Plan has policies and guidelines for each fixed income portfolio, prohibiting direct investment in derivative securities and non-dollar denominated investments, and requiring securities to be ‘BB’ rated or higher and no more than 10% of the portfolio may be invested in ‘BB’ rated securities.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Through the specific identification method, the Plan manages its exposure to fair value losses arising from changes in interest rates by requiring the average maturity of the portfolio be maintained in the range of plus or minus 25% of the benchmark index.

Using the specific identification method, the Plan had the following investments and maturities at December 31, 2013:

		Investment Maturities (in years)			
Descriptions	**Fair Value**	**Less than 1**	**1-5**	**6-10**	**>10**
Corporate Bonds	$ 8,314,515	$ 133,247	$ 3,890,693	$3,482,004	$ 808,571

Total	$ 13,574,145	$ 261,997	$ 6,578,440	$3,993,087	$2,740,621

The Plan has a $22,157,754 investment in two mutual funds that are comprised of primarily bonds with varying investment maturities; the effective duration for the mutual funds are 5.37 and 4.10 years.

The Plan has a $10,154,249 investment in a limited partnership comprised of corporate loan obligations with varying maturities; the average maturity for the limited partnership is 5.37 years.

The Plan had the following investments and maturities at December 31, 2012:

		Investment Maturities (in years)			
Descriptions	**Fair Value**	**Less than 1**	**1-5**	**6-10**	**>10**
Corporate Bonds	$ 14,605,081	$ 305,820	$ 7,075,755	$6,134,129	$1,089,377

Total	$ 23,753,008	$ 308,844	$ 10,525,367	$7,175,990	$5,742,807

The Plan has a $23,556,190 investment in a mutual fund that is comprised of primarily bonds with varying investment maturities, the average maturity for the mutual fund is 6.09 years.

Custodial Credit Risk

Custodial credit risk for deposits and investments is the risk that in the event of the failure of the custodian, the Plan may not be able to recover the value of the investment securities that are in the possession of an outside party.

NOTE 4 – INVESTMENTS (CONTINUED)

The Retirement Board is responsible for oversight of the Plan's investments. Investments in US. Government agency obligations, corporate and foreign bonds, equity and foreign securities and real estate investments are insured or registered and are held by the Plan or by US Bank, the custodian, in the Plan's name. Investments in open-ended mutual funds are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book-entry form.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss associated with a lack of diversification of having too much invested in a few individual users, thereby exposing the organization to greater risks resulting from adverse economic, political, regulatory, geographic, or credit developments. For its corporate bond portfolio, no more than 2% of the portfolio may be invested in the securities of any one issuer, except debt obligations issued or guaranteed by the U.S. Government or its agencies and instrumentalities. For its U.S. Small Capitalization Stock portfolio, no more than 5% of the market value of the portfolio may be invested in the stock of any one issuer, and no more than 7% of the market value of the Mid-Capitalization Stocks portfolio may be invested in the stock of any one issuer.

The following information presents investments that represent 5% or more of the Plan’s net position as of December 31, 2013 and 2012:

NOTE 4 – INVESTMENTS (CONTINUED)

Foreign Currency Risk

Foreign currency risk is the possibility that changes in exchange rates between the US. dollar and foreign currencies could adversely affect a deposit or investment's fair value. The Plan's investment policy allows 20% - 30% of total investments to be in foreign equities, and no more than 15% of the market value of the Mid-Capitalization Stocks portfolio may be invested in foreign securities. The Plan has no policy for investment in foreign bond issues. Plan investments in international equity mutual funds, foreign equity securities and foreign bond issues have exposure to foreign currency risk. Exposure to foreign currency risk as of December 31, 2013 and 2012 is as follows:

	2013	2012
Foreign portfolio (all are U.S. dollar denominations)	$ 890,935	$ 1,723,696

NOTE 5 – CONTRIBUTIONS REQUIRED AND CONTRIBUTIONS MADE

The total contribution rates were 17% and 16.5%, for December 31, 2013 and 2012, respectively, split equally between the employee and the employers. The contribution rate will continue to increase 0.5% per year up to 18.0% in 2015.

Contributions totaling $16,579,534 ($8,289,767 employers and $8,289,767 employees) and $15,066,811 ($7,533,395 employers and $7,533,416 employees) were made during the years ended December 31, 2013 and 2012, respectively. These contribution amounts fall below the actuarial required contribution amount for the years ended December 31, 2013 and 2012.

NOTE 6 – ACTUARIAL FUNDING PROGRESS, ASSUMPTIONS AND METHODS

The funded status of the Plan as of January 1, 2013, the most recent actuarial valuation date, is as follows:

NOTE 7 – COMMITMENTS

Partnership Capital Commitments

The Plan is a party to three private equity limited partnership agreements. Under the terms of the partnership agreements, the Plan has pledged to invest $12,500,000 and $8,500,000 in portfolios of limited partnerships as of December 31, 2013 and 2012, respectively. Failure by the Plan to fund a capital call is considered a default under the agreements and various penalties, as defined, may be imposed upon the Plan for such failure. The commitment period for all partnerships extends until the Plan's capital commitment is fulfilled, or the partnership's term is reached. At December 31, 2013 and 2012, the Plan had remaining unfunded capital commitments of $4,915,000 and $5,740,000, respectively.

NOTE 8 – FINANCIAL OBLIGATIONS WITH OFF BALANCE SHEET RISK

Derivatives

Mutual Fund Investment

The Plan is permitted to own derivative investments. During the years ended December 31, 2013 and 2012, the Plan's owned indirect derivative investments in connection with managed (mutual) funds. Because the Plan does not own any specific identifiable investment securities held by managed funds, the market risk associated with any derivative investments held in these funds is not apparent. The degree of market risk depends on the underlying portfolios of the funds, which were selected by the Plan in accordance with its investment policy guidelines including risk assessment.

NOTE 8 – FINANCIAL OBLIGATIONS WITH OFF BALANCE SHEET RISK (CONTINUED)

Hedge Fund of Funds Investment

The hedge fund's investments in portfolio funds are subject to various risk factors arising from the investment activities of the portfolio funds including market, credit, and currency risk. The portfolio funds owned by the hedge fund transact in short sales and various domestic and international derivative investments, including forward foreign currency contracts, futures, written and purchased options and swaps. Investments in securities of non-US. issuers may be subject to greater illiquidity and price volatility than securities of US. issuers. Investments denominated in currencies other than the portfolio fund's reporting currency expose the portfolio fund to risks that the exchange rate of the portfolio fund's currency relative to other currencies may change in a manner which has an adverse effect on the value of the portfolio fund's foreign currency denominated assets.

NOTE 9 – RISK MANAGEMENT

The Plan is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions, injuries to employees and natural disasters. Some losses, particularly regarding the occupancy of office space in the County building, are covered by the County’s risk management policies and agreements. For other losses, commercial insurance has been purchased by the Plan. The Plan has not had claims on losses in the past three years.

NOTE 10 – TAX STATUS

The Plan received two favorable determination letters (one for Adams County, and one for Rangeview Library District) from the Internal Revenue Service dated August 8, 2011, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended and restated since receiving the determination letters, the Plan Administrator and the Plan's legal counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and remains in tax exempt status. The letters relate only to the status of the Plan under the Internal Revenue Code and are not a determination regarding the effect of other federal or local statutes.

NOTE 11 – PLAN TERMINATION

The Retirement Board intends to continue the Plan indefinitely but reserves the right to change the Plan or discontinue it. Any changes to the Plan must be for the exclusive benefit of the eligible employees of the employers and their beneficiaries.

Upon termination or partial termination of the Plan, or a permanent discontinuance of contributions, the benefits accrued up to the date of termination by the affected employees and their beneficiaries, respectively, shall be nonforfeitable; however, actual payment of such benefits shall only be to the extent permitted from Plan assets. No funds may be returned to the employers unless all liabilities to members or their beneficiaries have been satisfied. The Retirement Board will determine when benefits are to be paid.

NOTE 12 – RELATED PARTY

The Plan is administered by a Retirement Board consisting of five members, one of whom is the incumbent County Treasurer, two of whom are non-elected County employees elected by said employees, and two of whom are registered electors of the County appointed by the Board of County Commissioners. Adams County provides office space, use of equipment and information systems as well as payroll and human resources support for the Plan. The Plan employs US Bank to act as custodian over plan assets.
